

## Our competitive advantages

- Dimensioning and design
- Draft and Structural Calculations
- Engineering services
- Computer-aided design (3D)
- 24 h / quotation service
- Technical services and assistance for contractors, distributors, consulting engineering firms
- Complete exhaust system delivered in five days
- Delivery of additional parts in 48 h
- Large Canadian and American distribution network
- Patented liner (prefab chimney)
- Customised parts

## Our achievements

SAN FRANCISCO INT AIRPORT **CA USA**  
INDEPENDANCE PLAZA **NY USA**  
UNIVERSITY OF WISCONSIN **WI USA**

## ■ FREE-STANDING CHIMNEYS

## ■ PRE-FAB CHIMNEYS

### Our mission

Become the world leader in the field of institutional, commercial and industrial chimneys.

To achieve our mission, we always strive to develop higher quality, innovative and easy to install products. Furthermore, we invest a great deal of effort in perfecting our methods, from order processing to production, in order to always deliver our products within an exceptionally short delay.

### Our know-how

Our Engineering department specializes in producing computer-aided design systems based on specific criteria such as the composition of combustion products, thermal and chemical conditions as well as corrosion.

Through structural analysis, including wind charges, seismic calculations and charges induced by vortices, our experts analyse and create each new design according to the chosen application.

Let us help you select the chimney model specific to your needs. We will propose the ideal composition, the appropriate form and assembly method in order to provide you with the best solution, both at technical and at economical levels.

### Applications

#### HIGH TECHNOLOGY PRODUCTS

- Diesel and turbine exhausts
- Industrial furnace exhausts
- Restaurant grease ducts
- Low and high pressure steam boiler
- Incinerator
- Unit heater
- Coffee roaster
- Heat exchanger
- Furnace and boiler

OFFER SERVICES ANSWERING FOR OUR DISTRIBUTORS, CONTRACTORS AND ENGINEERING FIRMS.

- On-line catalogues
- On-line Installation guides
- On-line purchasing
- Product selection
- Quotation section
- Draft calculations
- Specifications section
