

# FICHE TECHNIQUE

## CONDUIT DE GRAISSE • DD

Utilisée pour recueillir les eaux de pluie et de condensation à l'intérieur des sections verticales ou horizontales. À raccorder à un drain de 3/4" Ø (19mm) – NPT.

**Inclus :**

1 Bande d'assemblage (AB)

1 Bande de finition (FB)

K = Identique à celui des longueurs

A photograph of a cylindrical metal grease duct fitting. It has a flange on one end and a smaller diameter section on the other. The fitting is shown from a perspective view.

A technical drawing of the grease duct fitting. It shows a cross-section of the fitting with dimensions. The total length is 11.000" (279mm). The diameter of the main section is labeled D.I. and the diameter of the smaller section is labeled D.E. The diameter of the smaller section is 6.250" (159mm). There is a small dimension of 0.125" (3.175mm) for the thickness of the smaller section's wall.

DISPONIBLE POUR LES MODÈLES:

GDP/GDPL/GDPL2F/GDPL4F
